

LANDOWNER LIQUID FERTILISERS

FERT - FLASH

Grassland nutrition - Silage aftercut

A BETTER WAY – AN EASIER WAY

5 good reasons for you to use liquid fertiliser for your silage after-cut

1. Bigger Crops - very fast availability of nutrients ensures an earlier start for second crops
2. More even crops due to absolute accuracy of NPK; less risk of high free-ammonia to spoil your silage and no wastage at headlands
3. Added sulphur to optimise uptake and efficiency of N
4. Reduced leaching - 3 sources of N to give more even uptake pattern
5. Subsidised application rate of only £3 per acre, cheaper than doing it yourself
